

In addition to our high academic standards and in keeping with the Catholic tradition found at St. Rose of Lima School, our preschool students will also be exposed to the following religious concepts and skills.

- Morning and afternoon classroom prayer
- Bible stories about God and the Saints
- Learning the value of service by helping others

Programs

- Threes – Younger and Older 3-Year-Old Program
- Fours – Younger and Older 4-Year-Old Program
- Transitional Kindergarten (Must have completed a 4-year-old program prior to placement)

Rosebud Academy

Bringing learning to life for your
preschool student.

Mission Statement

St. Rose of Lima Catholic School nurtures students' hearts, minds and souls through the Dominican Tradition of prayer, study, community and service.

Goals

Rosebud Academy provides a bridge to St. Rose of Lima Catholic School as it is dedicated to

- Teaching each child through a play-centered program that fosters the special God-given gifts of each child.
- Developing the whole child, spiritually, physically, emotionally, and academically with age appropriate resources.
- Providing opportunities for cooperative play, learning and prayer.
- Creating an environment that is safe, loving, and supportive so to instill a love of learning that will last a lifetime.
- Staffing the preschool with dedicated professionals that will love and care for each child.

The students at Rosebud Academy:

- Build a personal relationship with God through prayer
- Know that they are a special gift from God
- Experience a positive academic atmosphere
- Learn to share and work in a cooperative classroom setting
- Become inquisitive problem solvers
- Acquire the skills and content needed for a successful transition into Kindergarten
- Feel safe and secure while on the Rosebud Academy campus

We offer the following Lab periods throughout the school week to incorporate a hands on, varied and stimulating environment.

Yoga Lab – This period is created to introduce the basics of the yoga practice in a developmentally based program. Elements of spatial awareness, physical flexibility and meditation are central themes.

Spanish Lab – The Spanish Lab incorporates music, movement, games and stories to introduce children to the Spanish language. Children will learn simple phrases, commands, colors and numbers throughout the school year.

Game Lab – The Game Lab implements age appropriate board games to familiarize students with specific concepts, such as sequencing and visual perception. These centered based activities will allow students to further investigate some of the core concepts for his/her specific developmental age group.

Gross Motor Lab – This period will support the development of spatial awareness, and gross motor skills through movement. Elements required to develop balance, eye/hand coordination and motor planning will be utilized. Students learn to work cooperatively towards a common goal.

Arts and Crafts Lab – Inspired by the adage of giving each child something for their head, their hand and their heart, this lab period is designed to introduce age-appropriate art activities paired with songs that focus on a variety of curriculum inspired topics. Students will be exposed to skills ranging from cognitive to fine motor using music and art in a fun, enriching small group environment.

Little minds learning

to do big things!
